TEX Consultants

The information here comes from the consultants themselves. We do not include information we know to be false, but we cannot check out any of the information; we are transmitting it to you as it was given to us and do not promise it is correct. Also, this is not an official endorsement of the people listed here. We provide this list to enable you to contact service providers and decide for yourself whether to hire one.

TUG also provides an online list of consultants at `tug.org/consultants.html`. If you'd like to be listed, please see there.

Dangerous Curve

Email: `typesetting (at) dangerouscurve.org`
Typesetting for over 40 years, we have experience in production typography, graphic design, font design, and computer science, to name a few things. One of us co-authored, designed, and illustrated a TEX book (*TEX for the Impatient*).

We can: convert your documents to LATEX from just about anything, type your documents from handwritten pages, proofread, copyedit, and structure documents in English; apply publishers' specs; write custom packages and documentation; resize and edit your images for a better aesthetic effect; make your mathematics beautiful, produce commercial-quality tables with optimal column widths for headers and wrapped paragraphs; modify bibliography styles, make images using TEX-related graphic programs; design programmable fonts using METAFONT; and more! (Just ask.)

Our clients include high-end branding and advertising agencies, academics at top universities, leading publishers. A member of TUG, we also have supported the GNU Project for decades (and even have worked for them).

All quote work is complimentary.

TeX and LaTeX consulting, training, typesetting and seminars. Integration with databases, automated document preparation, custom LaTeX packages, conversions (Word, OpenOffice etc.) and much more.

I have about two decades of experience in TeX and three decades of experience in teaching & training. I have authored more than forty packages on CTAN as well as Perl packages on CPAN and R packages on CRAN, published papers in TeX-related journals, and conducted several workshops on TeX and related subjects. Among my customers have been Google, US Treasury, FAO UN, Israel Journal of Mathematics, Annals of Mathematics, Res Philosophica, Philosophers' Imprint, No Starch Press, US Army Corps of Engineers, ACM, and many others.

We recently expanded our staff and operations to provide copy-editing, cleaning and troubleshooting of TeX manuscripts as well as typesetting of books, papers & journals, including multilingual copy with non-Latin scripts, and more.

I have been in academic publishing for 30+ years. I was a Linguistics major at Stanford in the mid-1970s, then started a publishing career. I knew about TeX from editors at Addison-Wesley who were using it to publish beautifully set math and computer science books.

Long story short, I started using LaTeX for exploratory projects (see website above). I have completed typesetting projects for several journal articles. I have also explored the use of multiple languages in documents extensively. I have a strong developmental editing background in STEM subjects. If you need assistance getting your manuscript set in TeX I can help. And if I cannot help I'll let you know right away.
