T_EX and L^AT_EX consulting, training, typesetting and seminars. Integration with databases, automated document preparation, custom L^AT_EX packages, conversions (Word, OpenOffice etc.) and much more.

I have about two decades of experience in T_EX and three decades of experience in teaching & training. I have authored more than forty packages on CTAN as well as Perl packages on CPAN and R packages on CRAN, published papers in T_EX-related journals, and conducted several workshops on T_EX and related subjects. Among my customers have been Amnesty International, Annals of Mathematics, ACM, FAO UN, Google, Israel Journal of Mathematics, No Starch Press, Philosophers' Imprint, Res Philosophica, US Army Corps of Engineers, US Treasury, and many others.

We recently expanded our staff and operations to provide copy-editing, cleaning and troubleshooting of T_EX manuscripts as well as typesetting of books, papers & journals, including multilingual copy with non-Latin scripts, and more.

Typesetting for over 40 years, we have experience in production typography, graphic design, font design, and computer science, to name a few things. One DC co-owner co-authored, designed, and illustrated a T_EX book (*T_EX for the Impatient*).

We can: ■ convert your documents to L^AT_EX from just about anything ■ type up your handwritten pages ■ proofread, copyedit, and structure documents in English ■ apply publishers' specs ■ write custom packages and documentation ■ resize and edit your images for a better aesthetic effect ■ make your mathematics beautiful ■ produce commercial-quality tables with optimal column widths for headers and wrapped paragraphs ■ modify bibliography styles ■ make images using T_EX-related graphic programs ■ design programmable fonts using METAFONT ■ and more! (Just ask.)

Our clients include high-end branding and advertising agencies, academics at top universities, leading publishers. We are a member of TUG, and have supported the GNU Project for decades (including working for them). All quote work is complimentary.

L^AT_EX Typesetting has been in business since 2013 and is run by Vel, the developer behind LaTeXTemplates.com. The primary focus of the service is on creating high quality L^AT_EX templates and typesetting for business purposes, but individual clients are welcome too.

I pride myself on a strong attention to detail, friendly communication, high code quality with extensive commenting and an understanding of your business needs. I can also help you with automated document production using L^AT_EX. I'm a scientist, designer and software developer, so no matter your field, I've got you covered.

I invite you to review the extensive collection of past work at the showcase on my web site. Submit an enquiry for a free quote!

I offer: design of books and journals for print and online layouts with L^AT_EX and CSS; production of books and journals for any layout with publish-ready PDF, HTML and XML from L^AT_EX (bypassing any publishers' processes); custom development of L^AT_EX packages with documentation; copyediting and proofreading for English; training in L^AT_EX for authors, publishers and typesetters.

I have over two decades of experience in academic publishing, helping authors, publishers and typesetters use L^AT_EX. I've built typesetting and conversion systems with L^AT_EX and provided T_EX support for a major publisher.

I have been in academic publishing for 30+ years. I was a linguistics major at Stanford in the mid-1970s, then started a publishing career. I knew about T_EX from editors at Addison-Wesley who were using it to publish beautifully set math and computer science books.

Long story short, I started using L^AT_EX for exploratory projects (see website above). I have completed typesetting projects for several journal articles. I have also explored the use of multiple languages in documents extensively. I have a strong developmental editing background in STEM subjects. If you need assistance getting your manuscript set in T_EX, I can help. And if I cannot help I'll let you know right away.
